

I'd like to take this opportunity to state my opinion regarding Proceeding 04-233. I am a "member" of KLove radio, which is a listener sponsored, non-commercial station. I support them financial on a monthly basis because this radio station meets a need in my community that is not met in any other way. I tune to KLove daily - listening an average of 8 hours per day (while working, driving, with family, etc.) This station meets my needs, my family's needs and my community's need by providing family friendly uplifting music and commentary, educational briefs, and news.

Losing KLove to an LPFM broadcaster providing other programming would have a major impact on my life, my family's life and the life of many others in the community, who rely on KLove for daily encouragement and support. K Love supports whoesome values and has a positive and encouraging impact on communities all across Americal The staff of this station are available to pray for its listeners; they provide valuable information about current events, and tell their listeners where to go for more information so they can be informed about current events that effect their lives. The fact that it is commercial free is important to me because it keeps commercial sponsors from having an influence over program content. It is in the public interest that faith based stations such as KLove be permitted to air. They provide a Christian perspective that is not available in the general media. PLEASE do not do anything to jeopardize the ability for KLove to continue providing this vital service to communities across this country. Thank you.
